TECHNICAL BULLETIN

TB0017 - HG2258 & HG1539 Head Gasket
Applications: Mitsubishi 4M4

HG1539 VS HG2258

Similarity in gaskets can easily lead to fitment and performance issues.

The two gaskets below are a case in point, both fit Mitsubishi four cylinder common rail **4M4#** generation engines. However **HG1539** fits the earlier **3.2 (4M41)** engine, whereas **HG2258** is for the newer **3.0 (4M42-3AT2)** with additional holes.

HG1539

HG2258
